

Bitcoin Classic (BTCC) White Paper

一、项目简介

I. Project Introduction

Bitcoin Classic (简称: BTCC), 被社区成员称为「00后的比特币」。

Bitcoin Classic (BTCC), often referred to by the community as "Bitcoin for the new generation," is known as the "Bitcoin of the post-2000 era."

BTCC 并不是一个试图取代比特币的项目, 也不是一个依靠资本运作、预挖、私募和市场炒作诞生的代币。

BTCC is not a project that seeks to replace Bitcoin, nor is it a token created through venture capital, pre-mining, private sales, or market hype.

它更像是一场关于比特币精神的实验。

Instead, it is an experiment dedicated to preserving and rediscovering the original spirit of Bitcoin.

我们希望通过现代技术和社区自治的方式, 重新创造一种普通人也能参与、也能挖矿、也能共同建设网络的机会。

Through modern technology and community governance, we aim to recreate an environment where ordinary people can participate, mine, and help build the network together.

在比特币诞生的早期, 每个人都有机会用自己的电脑参与网络建设。

In the early days of Bitcoin, anyone could secure the network with a personal computer.

而今天, 随着大型矿场和资本的进入, 这样的机会已经越来越少。

Today, industrial mining operations and large capital have made that opportunity increasingly rare.

BTCC 希望让更多普通人再次体验到早期比特币社区共同成长的过程。

BTCC hopes to allow ordinary people to experience the collaborative growth that defined the early Bitcoin community.

二、项目愿景

II. Vision

BTCC 的愿景非常简单：

BTCC has a simple vision:

让普通人重新拥有参与去中心化网络建设的机会，一起重走比特币之路。

To give ordinary people another chance to participate in building a decentralized network and walk the Bitcoin path once again.

我们相信：

We believe that:

- 去中心化比资本更重要；
- Decentralization is more important than capital.
- 社区共识比市场炒作更重要；
- Community consensus is more important than market speculation.
- 长期建设比短期价格更重要；
- Long-term building is more important than short-term price movements.
- 每一个普通人的坚持，都可能创造新的历史。
- Every ordinary person's persistence can help create history.

BTCC 不承诺暴富，也不制造神话。

BTCC does not promise overnight wealth or create unrealistic myths.

我们只希望建立一个真正属于社区的 PoW 网络。

We simply want to build a Proof-of-Work network that truly belongs to its community.

三、设计理念

III. Core Principles

1、社区驱动

1. Community Driven

项目没有中心化团队控制。

The project is not controlled by a centralized team.

重大决策由社区共同讨论和推动。

Major decisions are discussed and advanced by the community.

2、公平发行

2. Fair Launch

- 无预挖
- No pre-mine
- 无私募
- No private sale
- 无机构额度
- No institutional allocation
- 无团队保留
- No reserved team tokens

所有 BTCC 都通过公开、公平的方式产生。

All BTCC coins are created through an open and fair process.

3、工作量证明 (PoW)

3. Proof of Work (PoW)

BTCC 继承比特币工作量证明机制。

BTCC inherits Bitcoin's Proof-of-Work mechanism.

矿工通过贡献算力保护网络安全，并获得区块奖励。

Miners secure the network by contributing computing power and receive block rewards.

4、长期主义

4. Long-termism

BTCC 不追求短期热点和激烈的市场炒作。

BTCC does not chase short-term trends or speculative hype.

我们相信真正有价值的网络，需要时间去沉淀和成长。

We believe truly valuable networks require time to mature and grow.

四、技术架构

IV. Technical Architecture

BTCC 基于 Bitcoin Core 演化开发。

BTCC is developed based on the Bitcoin Core architecture.

主要特点包括：

Key features include:

- Bitcoin Core 架构
- Bitcoin Core architecture
- 去中心化 P2P 网络
- Decentralized P2P network
- SHA256 工作量证明
- SHA256 Proof of Work
- 区块奖励机制
- Block reward mechanism
- 开源代码

- Open-source code
- 社区节点维护
- Community-operated nodes
- 社区矿池支持
- Community mining pools

为了适应社区发展，BTCC 引入更加合理的 ASERT 难度调整算法，提高网络稳定性和抗算力波动能力。

To improve network stability and resistance to hash-rate fluctuations, BTCC adopts the ASERT difficulty adjustment algorithm.

五、经济模型

V. Tokenomics

发行机制

Distribution

BTCC 采用公平发行模式。

BTCC follows a fair launch model.

所有代币均通过挖矿产生。

All coins are generated through mining.

项目启动：

At launch:

- 社区零预留
- Zero community reserve
- 零私募
- Zero private sale
- 零机构配额
- Zero institutional allocation

任何人都可以从同一起点参与。

Everyone starts from the same line.

总量机制

Supply Mechanism

BTCC 延续比特币经典减半机制。

BTCC follows Bitcoin's classic halving model.

随着区块高度增长，区块奖励逐步减少。

As block height increases, block rewards gradually decrease.

最终形成稀缺性的数字资产。

This gradually creates a scarce digital asset.

六、社区治理

VI. Community Governance

BTCC 相信：

BTCC believes that:

真正强大的项目，不是依靠某一个团队，而是依靠全球社区。

A truly strong project depends not on one team, but on a global community.

社区成员可以：

Community members can:

- 建立本地社区；
- Build local communities.
- 创建内容；
- Create content.
- 维护节点；

- Maintain nodes.
- 推广项目；
- Promote the project.
- 提交代码；
- Contribute code.
- 提出改进方案；
- Propose improvements.
- 参与生态建设。
- Help build the ecosystem.

所有长期贡献者，都将成为 BTCC 历史的一部分。

Every long-term contributor will become part of BTCC's history.

七、生态建设

VII. Ecosystem Development

基础设施

Infrastructure

- 社区官网、网页手机钱包
- Official website and web wallet
- 区块浏览器、手机端钱包
- Block explorer and mobile wallet
- 社区公共矿池、SOLO 矿池
- Community mining pool and solo mining pool
- 水龙头、MAC 客户端
- Faucet and macOS client

- OTC 交易平台
- OTC trading platform

社区生态

Community Ecosystem

- 全球社区
- Global communities
- 多语言支持
- Multi-language support
- KOL 合作计划
- KOL partnership program
- 开发者社区
- Developer community
- 内容创作者激励
- Content creator incentives

未来方向

Future Development

- 更多节点部署
- More network nodes
- 更多矿池接入
- More mining pools
- 更多第三方钱包支持
- More third-party wallets
- 更多交易平台接入
- More exchange integrations

- 更完善的社区治理体系
 - More mature community governance
-

八、关于交易所

VIII. About Exchange Listings

BTCC 不会为了短期流量而急于登陆大型交易所。

BTCC will not rush to major exchanges simply for short-term attention.

我们认为：

We believe:

真正优秀的项目，应该先拥有健康的社区和真实的用户。

A great project should first build a healthy community and genuine users.

当社区发展到一定规模时，交易平台自然会关注并主动接入。

When the community reaches sufficient scale, exchanges will naturally take notice.

社区建设永远优先于市场炒作。

Community building will always come before market speculation.

九、风险提示

IX. Risk Disclaimer

BTCC 是一个开放的社区实验。

BTCC is an open community experiment.

数字资产市场存在较大风险。

Digital asset markets involve significant risks.

BTCC 不承诺收益，不保证价格上涨。

BTCC does not promise profits or guarantee price appreciation.

参与者应充分了解区块链技术及相关风险，并根据自身情况理性参与。

Participants should fully understand blockchain technology and related risks before making decisions.

十、我们的信念

X. Our Belief

如果你错过了 2009 年的比特币，

If you missed Bitcoin in 2009,

至少不要错过一次了解 BTCC 的机会。

at least don't miss the opportunity to learn about BTCC.

我们并不要求每一个人都相信 BTCC。

We do not expect everyone to believe in BTCC.

我们只是希望，当未来回头看的时候，你知道：

We simply hope that when you look back one day, you will know:

曾经有一群普通人，没有资本，没有机构，没有明星站台。

There was once a group of ordinary people, with no big capital, no institutions, and no celebrity endorsements.

他们只是因为热爱比特币精神，而聚集在一起。

They came together simply because they believed in the spirit of Bitcoin.

一点一点，建设属于自己的网络。

Step by step, they built a network of their own.

BTCC 核心价值观

BTCC Core Values

公平发行（Fair Launch）

社区驱动 (Community Driven)

工作量证明 (Proof of Work)

长期主义 (Long-termism)

去中心化 (Decentralization)

Bitcoin Classic (BTCC)

让普通人，再拥有一次参与历史的机会。

Giving ordinary people one more chance to become part of history.
